

Gravitas Leadership has partnered with Pierres d'Histoire to offer an exclusive experience in a unique setting.

# Motivate your teams !

## Discover your leaders !

Since 2014, Gravitas Leadership has organized seminars on the estate of the Château de Courances. It is an ideal and pleasant place to do outdoor activities, recharge your batteries, reflect and discuss in peace on business issues. We are looking to expand our offer to be able to accommodate small teams beyond a day.

The meeting with Pierres d'Histoire made it possible to fulfill our wishes!

What makes the concept is strong, it is a territory of reflection, action and exchanges which highlights the functioning of teams and individuals. This exclusive place allows you to offer an « à la carte » stay in a “campus” spirit with an large offer of residential services and effective activities such as:

# THE SETTING

Located in Courances, in the beautiful forest region of Fontainebleau, near Barbizon, our exclusive seminar space is located less than an hour from Paris.

The campus is structured harmoniously on three different types of architecture, the Hamlet of Courances, the Gate Lodge “la Régie”, Antoine’s House and Fénil dedicated to meetings and meals. These accommodations are located near a sumptuous Japanese garden and naturally open onto the Courances gardens.
